"Our clients are going into the same level of detail in the bathroom as in any other room. We recently did a man's bathroom that had beautiful mahogany panelling and **furniture to coordinate** with the rich wood panelling in the bedroom."

BRIAN GLUCKSTEIN, GLUCKSTEIN DESIGN PLANNING, TORONTO

"People are eliminating the tub/shower combination unit and going for the **super-shower** – a shower in the same space that used to fit the tub. You can add a double bench for sitting and to prop up your leg for shaving. You can also put in a rain showerhead, multiple sprays, steam – the whole bit." LEN GRACI, AQUAWORKS BATHROOMS & KITCHENS, TORONTO

"People today are recreating spas in their own homes: steam rooms, Kohler's infinity bath where the water flows over the edges, **showers with multiple sprays** and other features. People are working harder than ever these days, so they want to come home to escape." ANASTASIA RENTZOS, ANDROS KITCHEN & BATH DESIGNS, MISSISSAUGA, ONT.

"Storage in general is important, whether it's shelves, cabinets, niches for displays, or **freestanding furniture**. We have furniture-like vanities, high-end medicine cabinets and also furniture especially for the bathroom." RAYMOND BINNS, BINNS KITCHEN + BATH DESIGN, PICKERING, ONT.

"What's really hot now is the **rain showerhead**. It mounts on the ceiling and showers water down gently through tiny holes by gravity, like rain. It's very gentle and soothing." RAYMOND BINNS, BINNS KITCHEN + BATH DESIGN, PICKERING, ONT. ■
